# Buchwald Ligands

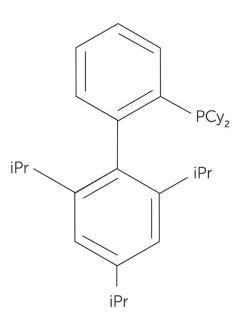

Excel in a broad range of palladiumcatalyzed coupling reactions

As a leader in specialty chemicals and advanced materials for the microelectronics, life sciences, and other high-tech industries, we can accelerate your new product development efforts and manufacturing supply chain by providing critical materials at the appropriate scale, and within the communicated delivery schedule. Our portfolio of Buchwald ligands is tailored to your manufacturing requirements and specifications to meet your high-quality customized needs.

Our experienced R&D teams provide deep chemistry expertise in an innovative culture to deliver custom synthesis solutions that meet your proprietary development needs. With our extensive manufacturing capabilities, we can handle a range of projects from grams to metric ton quantities, through scale-up and full commercialization. We also provide chemical process development, piloting, and custom chemical manufacturing.

### **APPLICATIONS**

- Active pharmaceutical ingredients (APIs) for small molecule drug manufacturing
- Industrial polymer manufacturing
- Palladium-catalyzed coupling of aryl chlorides with amines
- OLEDs

## **FEATURES & BENEFITS**

| High purity<br>ligands                    | Enables reproducible and economical manufacturing with highest quality and purities for consistent yields and results   |  |  |  |
|---|---|--|--|--|
| Air, moisture,<br>and thermally<br>stable | Displays good solubility in common organic solvent  |  |  |  |
| Customer<br>collaboration                 | Proactive and regular team communication<br>and encouraged site visits enable beneficial<br>idea exchange and enhance on-track<br>progress  |  |  |  |
| Advanced<br>scientific<br>expertise       | Technical transfers, R&D, scale-up<br>optimization, and continuous improvement<br>are conducted by PhD chemist-led teams that<br>are supported by world-class quality and<br>analytical resources |  |  |  |
| ISO 9001 and<br>14001<br>certifications   | The Entegris quality management system<br>(QMS) certified by the ISO 9001 standard<br>ensures provision of consistent quality<br>products meeting customer and regulatory<br>requirements         |  |  |  |
|   | The Entegris environmental management<br>system (EMS) following the ISO 14001<br>standard assures a strategic and integrated<br>approach to managing and improving<br>environmental performance   |  |  |  |

## **SPECIFICATIONS**

Our products are made to strict specifications and our experienced R&D teams can partner with you to meet your proprietary development needs. With our manufacturing capabilities and resources, we can deliver on communicated timing requirements as well as high-quality customized solutions. <u>Contact us</u> with your specifications.

# **Product Portfolio**

Entegris is a licensed manufacturer of Buchwald ligands.

| Catalog # | CAS #            | Common Name      | Product   | Structure                            |
