

## COMPANY OVERVIEW

Founded in 1966, Entegris has been serving customers in the semiconductor industry with highly complex requirements for over 50 years.

### Our Mission

To help our customers improve their productivity, performance, and technology by providing enhancing materials and process solutions for the most advanced manufacturing environments.

### Life Sciences Locations

### Entegris at a Glance

#### HEADQUARTERS

Billerica, MA

#### 2020 REVENUE

\$1.9 Billion

#### EMPLOYEES

~5,800

#### PATENTS

2,500+

#### EXECUTIVE LEADERSHIP TEAM

[Bertrand Loy](#), President and CEO

[Todd Edlund](#), EVP and COO

#### LIFE SCIENCES LEADERSHIP

[John B. Lynch, Ph.D.](#), VP, Life Sciences

#### GLOBAL SUPPLY CHAIN LEADERSHIP

[Neil Richards](#), SVP, Global Operations and Supply Chain

## FILLING AN URGENT NEED

The COVID-19 pandemic has put unprecedented pressure on the healthcare industry as it races to develop, manufacture, and distribute vaccines. Our semiconductor experience positioned us to rapidly respond with innovative solutions to this critical need. Our technologies are being used in the production of biotherapeutics, including the COVID-19 vaccines.

### Key Benefits of Entegris' Solutions in Bioprocessing Include:

- Robust supply chain
- High purity and cleanliness standards
- Manufacturing capacity to fulfill single-use orders and prevent interruptions or shutdowns in production
- Industry-leading turnaround time without compromising customers projects
