

Rigid Outer Containment Totes

Complete solution for shipping and storage of liquids

ALLpaQ containers are rigid plastic units specifically engineered for the storage and transportation of large-volume liquids. Constructed by ALLpaQ Packaging Group, these containers serve as a complete solution for shipping and storage of liquids. Carefully designed to meet Entegris customers' storage and shipping needs, these bins offer unparalleled functionality and reliability.

APPLICATIONS

- Large-volume liquid storage
- Intra-facility transport
- Inter-facility transport
- The ALLpaQ Genesis tote is the premier option for shipping and storing large volume process liquids.
- The ALLpaQ Cleanroom bin is identical in size, but is offered for particle-sensitive environments.

1000 L (left) and 600 L (right)

FEATURES & BENEFITS

ALLpaQ containers have a variety of properties perfectly suited for transporting large-volume liquids in the biopharmaceutical industry.

Quality construction and robust design	Enables containers to be used multiple times and with ALLpaQ support for repairing damaged bins, ensures longevity and cost effectiveness.
Support for repairing damaged bins	Extends the lifespan of the containers, providing additional cost effectiveness.
Collapsible walls and stackable design	Enables bins to conveniently fold down allowing for compact storage when not in use. Maximizes space efficiency and storage convenience both when empty and when full.
Polypropylene bins	Designed for easy cleaning with a cleanroom option available for customers who require minimal particulate generation.
Pallet-sized bins	Enable easy movement by pallet jack or forklift allowing the same cart to be used for both bin volume sizes providing convenience and flexibility.
